OLD CAPITOL

## PREFACE

Previous to the present attempt, there have been four publications issued which contain the names of graduates of The State University of Iowa. In 1877 the University published a "Catalogue of Officers and Alumni of the State University of Iowa, 1847-1877." Eight years later, it issued a pamphlet of "Officers and Alumni of the State University of Iowa, 1847-1885, and undergraduate students." In June, 1887, the Alumni Association of the University ordered printed a "Directory of the Alumni Association." The book was issued that same year. There seem to have been no further attempts until the Statistics Committee of the Alumni Association set to work in 1902 and 1903 to gather information relative to the location and work of Alumni. With University aid in publishing, an Alumni Register was issued in 1904. The present volume is the result of an act passed by the Board of Regents in the spring of 1909, when \$800 was appropriated for the purpose of compiling and publishing an Alumni Register—the work to be done in the office of the Alumni Bureau of Information.

Bearing in mind these more or less sporadic attempts, it is not surprising that when the Alumni Secretary began the present undertaking, records were found to be in a dilapidated condition. The fires that destroyed Old South Hall, the Medical Building, and the University Library, swept away much valuable material. Information concerning Alumni was more or less meager as no systematic plan for keeping in touch with graduates had ever been provided.

After a somewhat extended investigation, a report was made to the State Board of Education—which came into power July 1, 1909—to the effect that the eight hundred dollars appropriated by the Board of Regents would be entirely inadequate to carry out the work contemplated. The State Board of Education showed a sympathetic interest in the work and promised additional support—a promise which it has been faithful in fulfilling.

As a result of the understanding with the Board, new filing cases, new cards, and new equipment generally were ordered, and the work of making new Alumni lists was begun. The files

were completed this spring, (1911). In them, the Alumni are classified in three ways—alphabetically, by classes according to colleges, and geographically. The present register represents still another classification, an alphabetical arrangement according to colleges.

Inadequate University records have made it impossible to verify all names concerning which questions have arisen, and it will be nothing short of remarkable if mistakes are not found in the present volume. Years of painstaking investigation must necessarily pass before all errors can be eliminated. Another matter which has retarded work to a considerable extent has been the neglect with which some Alumni have treated inquiries that have been sent to them. It is probable that many who are now marked unknown, are living within comparatively short distances of the University, but their failures to respond to requests for information has made it impossible to give their post-office addresses. It is believed, however, that as the work of correction proceeds from year to year, this difficulty will be gradually overcome.

#### SOME STATISTICS.

In compiling the card files, the following interesting information has been gained. The records show that there have been a total of 9,923 degrees granted by the University. This number includes honorary degrees, and those granted at The College of Physicians and Surgeons of the Upper Mississippi at Davenport, from 1848 to 1851, and the graduates of The Keokuk Medical College from 1851 to 1870. It takes into account, also, those who graduated from The Iowa Law School at Des Moines in the years 1866, 1867, 1868. The degrees that have been conferred, are divided among the colleges of the University as follows:\*

The Normal Department .....	188
The College of Law .....	2,856
The College of Liberal Arts .....	2,723
The Keokuk Medical College .....	567
(Including the College of Physicians and Surgeons of the Upper Mississippi.)	
The College of Medicine .....	1,380
The College of Homeopathic Medicine .....	364
The College of Dentistry .....	945
The College of Pharmacy .....	274

Nurses, University Hospital .....	65
Nurses, Homeopathic Hospital .....	49
The Graduate College .....	256
The College of Applied Science .....	165
Honorary .....	91

\*Does not include graduates of Summer School for 1911.

These degrees, excluding the Keokuk Medical graduates, have been divided among 8,558 persons. Of this number, approximately 750 are known to be dead; addresses of 1,457 are unknown; the balance, 6,351 have been located.

Of the 8,558 persons to whom one or more degrees have been granted, 1,280 are women; of this number 334 are reported as married.

It has taken so much longer to prepare copy for the printer than was anticipated, that it has not seemed advisable to delay publication in order to compile additional statistics. It is hoped however, that as the work of keeping up the card files and issuing Registers is continued this feature will not be neglected.

The Secretary would like to lay special emphasis upon the fact that, if the present files are to be kept accurately, the burden must largely fall upon the Alumni. If each Alumnus will mail to the Bureau the changes that come to his notice, such aid, in connection with the correspondence which the Bureau will conduct, ought to be sufficient to keep the files in good condition.

# KEOKUK MEDICAL COLLEGE

Established in 1848, on paper. The College of Physicians and Surgeons of the Upper Mississippi at Davenport was recognized as the Medical Department of the University. In 1851 the Legislature passed an act declaring the Medical School at Keokuk successor to the Davenport school, and made it, like its predecessor, the Medical Department of the University.

Degrees were granted until 1870.
